The Geneva Foundation is a non-profit organization that supports and advances innovative medical research and excellence in education within the U.S. military.

The Geneva Foundation serves as a trusted partner in supporting orthopaedic research within the military. Geneva has demonstrated expertise with various types of research to include:

- Basic Research
- Drug Development
- Evidence-Based Practice
- Outcome Studies
- Device Studies
- Intervention Studies
- Phase I-IV Trials

**The Geneva Experience**

Principal investigators, sponsors, and other partners choose to work with Geneva because of our superior customer service, diversity of performance sites, patient populations, and ability to work within the military research environment.

Geneva partners with researchers through:

- Identifying new research opportunities
- Offering proposal development support
- Leading contract negotiations
- Coordinating budget development
- Engaging subcontracts and subawards
- Drafting CRADAs and regulatory agreements
- Facilitating protocol submission
- Providing high-level project management support
- Procuring study-related materials and supplies
- Providing financial reports

**Benefits of a Geneva Collaboration**

**Federal Grants:** On behalf of our researchers, Geneva submits research applications to, and administers awards from notable grant-making bodies including:

- Peer Reviewed Orthopaedic Research Program
- American Society for Surgery of the Hand
- OMeGA Medical Grant Association
- Orthopaedic Trauma Research Program
- Orthopaedic Research and Education Foundation
- National Institute of Arthritis & Musculoskeletal & Skin Diseases
- Directorates of the United States Army Medical Research and Materiel Command
- Triservice Nursing Research Program

**Clinical Trials:** Geneva partners with biotech firms, pharmaceutical and device manufacturers, and CROs of all sizes in pursuit of research. Our strong past performance in orthopaedic research adds value to collaborators when responding to requests for proposals.

**Educational Opportunities:** Geneva offers a variety of educational opportunities to the military medical community. Our capabilities include hosting large national conferences, managing educational accounts, and accepting gifts on behalf of federal sites.

For more information go to www.genevaUSA.org or email us at info@genevaUSA.org

**Orthopaedic Experience**

Approximately 20% of Geneva’s research portfolio is focused on orthopaedic research. We work within a wide variety of indications, such as:

- Amputee Research
- Bone Fracture
- Injury Prevention
- Ligament Reconstruction
- Limb Pain
- Musculoskeletal Injury
- Open Reduction Internal Fixation
- Osteotomy
- Rehabilitation
- Regenerative Medicine
- Spinal Stenosis
- Total Joint Replacement
