

The Geneva Foundation is a 501(c)3 nonprofit organization that facilitates partnerships between researchers and public and private organizations. For over 30 years, Geneva has been a dynamic accelerator of scientific discovery and a steadfast partner in conducting military medical research and development. Geneva provides proposal development, financial and contract administration, and award management services designed to secure funding and foster innovative research of specific relevance to the DOD community.

Our purpose is to ensure optimal health for service members and the communities they serve.
